We have an up-to-date system of dessicating, cleaning and testing seeds and the seed we send out is PURE and of high germinating qualities. It is seed that GROWS. We prefer seed orders early in the fall and will fill same subject to crop being sufficient and with the understanding that no liability will attach in case of failure to crop from any cause. Although we furnish seeds of high germinating percentage, they are without warranty in respect to growth; there being many causes which prevent good seed from germinating.

Assemblers and Dealers — Collect — Extract — Import — Export

The seeds priced in this list are of American, European, Asiatic, and North African species and are suitable for planting in a temperate climate. We can furnish seeds for tropical and semi-tropical climates and will price on request with a list of requirements of same.

We make no charge for bags or packing. Where seeds are sent parcel post there is an additional charge (five cents on orders up to \$5.00; ten cents on orders from \$5.00 to \$10.00; fifteen cents on orders of \$10.00 to \$25.00) to insure your parcel. All prices are F.O.B. Pembine, Wisconsin.

Write for our price list of Trees, Shrubs and Perennial Seedlings and Transplants for home rock gardens and nursery planting.
